NEWS MAGAZINE OF ACECRETE ADHESIONS INDIA PRIVATE LIMITED

The Engineering Community across India is celebrating Engineers Day on 15th September of every year as a remarkable tribute to the greatest Indian Engineer Bharat Ratna Sir M. Visvesvaraya. He is held in high regard as a pre-eminent engineer of India.

We wish all the Engineer's a very happy Engineers Day...

Sir. M. Visvesvaraya Manufacturing Excellence Award - by Government of Karnataka.

NEWS DESK

It is our pleasure to announce that Karnataka Government has recognized our company as one of the best automated manufacturing company in Karnataka and awarded our company with **"Sir M. Visvesvaraya Manufacturing Excellence Award"**. It was a proud moment for us to receive the prestigious state award from honourable Chief Minister Sri. B. S. Yediyurappa along with other cabinet ministers at Vidhana Sowdha, Bangalore. We are extremely honoured to be receiving such an award.

Winning this award would not have been possible without the inspiration we have received from our team, distributors, customers and well wishers, for whom we have the deepest respect and from whom we have derived the strength to challenge ourselves and perform better at each stage.

We sincerely thank our team, well wishers, vendors & dealers for helping us reach a stage where we can proudly hold up this award as a mark of our achievement. We also promise to get better at our work so that you can see us win much more awards.

ACEBOND is introducing an innovative, water-based epoxy grout to the market that offers excellent chemical, acid and stain resistant properties. This is the first of its kind, two component, paste form water-based system in the Indian market and has been formulated specifically for ease of application and clean-up.

Being water-based, Aquagel 2K is much easier to mix and clean up. This formulation also offers excellent workability and is much easier to work with than regular epoxy based grouts. The product is available in 26 attractive and many customized colours.

Aquagel 2K, Water-Based Epoxy Grout is ideal for installation areas such as houses, shopping malls, breweries, dairies, hospitals, food and beverage production and preparation areas, swimming pools, bacteria and mould-growth areas. It is also well suited to areas that require high levels of chemical resistance, acid resistance and which are subjected to high-pressure hosing and steam cleaning.

This product is supplied in a 2 component kit, namely a resin and a hardener. Although mixing of complete, full packs is preferred, part-mixing can be done provided the exact mix ratio is followed. After mixing, Aquagel 2K Water-Based Epoxy Grout is usable for approximately 45 minutes at 25°C.

Advantages

- Water based formula
- Outperforms other epoxy and cement based grout
- Stain proof and chemical resistant
- Tough, durable, and crack resistant
- Improved non-sag formula for walls and floors
- Uniform color - No blotchiness or shading
- Easy to clean and maintenance
- Meets performance requirements of ANSI A 118.8
- Ideal for installations at wide temperature range

Application guidance

Chemical resistance chart in accordance With ASTM C 267-1982 at 21 ° C:

ACEPOXY EPOXY GROUT CHEMICAL RESISTANCE CHART AT 21° C LAB CONDITION			
REAGENT NAME (at 25°C)	Continuous Exposure	Intermittent Exposure	Splash exposure
Milk	R	R	R
Wine	R	R	R
Ethanol	NR (soft)	R	R

The Story of the Butterfly

A man found a cocoon of a butterfly. One day a small opening appeared. He sat and watched the butterfly for several hours as it struggled to squeeze its body through the tiny hole. Then it stopped, as if it could not go further.

So the man decided to help the butterfly. He took a pair of scissors and snipped off the remaining bits of cocoon. The butterfly emerged easily but it had a swollen body and shriveled wings. The man continued to watch it, expecting that any minute the wings would enlarge and expand enough to support the body. Neither happened! In fact the butterfly spent the rest of its life crawling around. It was never able to fly.

What the man in his kindness and haste did not understand: The restricting cocoon and the struggle required by the butterfly to get through the opening was a way of forcing the fluid from the body into the wings so that it would be ready for flight once that was achieved. Sometimes struggles are exactly what we need in our lives. Going through life with no obstacles would cripple us. We will not be as strong as we could have been and we would never fly.

Shivanand Sunder Shetty
 Savita Traders, Karkala

We would like to express our sincere appreciation for your service to us as one of our most reliable regular suppliers. Ever since we signed our contract, you have provided the highest quality products with even better customer service. Deliveries are often received earlier than expected, and you are quick to resolve any issues that arise.

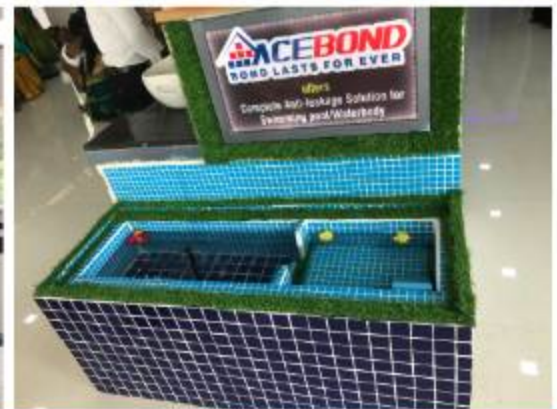

We look forward to extending our contract with you for years to come and hope you will continue to provide such excellent service to us. Thank you for a favorable services, and we look forward to many more.

Warm regards,

Savita Traders

 Proprietor

'ACESHOPPEE' helps you buy what you need and also assists you how to use what you bought. We have come up with this concept with a sole intention to guide the end users about the products. We request our customers to make use of our ACESHOPPEE to select right products for right applications. Clarification is better than rectification. So if you have right knowledge about the products you can get best results from it. Customer's satisfaction is our main vision and this is a small step towards it. We could not start this project without the support of our dealer M/s Savita Traders. We thank them for their kind support. Now we request our customers to utilize this offer and make it more successful.

Feel free to give your views, feed back, ideas and opinions related to this field. You may be the next face in our news letter.

To,

Book-Post
