

Acrete wishes a Happy World Nature Conservation Day

World Nature Conservation Day is celebrated on July 28 every year. The main purpose of celebrating World Nature Conservation Day is to conserve the animals and trees that are extinct from the natural environment of the earth.

"It is not wrong to say that the health and well-being of a person is directly proportional to the time he spends in touch with nature. Love nature and conserve it. **Have a very happy World Nature Conservation Day!**"

WATERPROOFING

Waterproofing is the process of making an object or structure waterproof or water-resistant so that it remains relatively unaffected by water or resisting the ingress of water under specified conditions. "Water resistant" and "waterproof" often refer to penetration of water in its liquid state and possibly under pressure, whereas damp proof refers to resistance to humidity or dampness. Permeation of water vapour through a material or structure is reported as a water vapour transmission rate.

In India, waterproofing is often done with conventional systems like brick or conventional tile laying, lime or mud-fuska. These methods are not long-lasting and it just provides slope to the terrace to drain away the water. Over the time, these systems do not provide waterproofing and crack develops over it, leading to leakages through terrace and dampness on ceiling or wall.

Acebond introduces complete range of waterproofing of basements, screeds, roof slabs, terrace, water body and swimming pools. All waterproofing products are carefully manufactured in state-of-the-art facility and thoroughly tested in full fledged QC laboratory before sending to customers and thus quality of the products are guaranteed.

ACEPROOF Rainshield: Elastomeric Waterproofing Coating

Aceproof Rainshield is a superior quality latex admixture designed for mix with 1 part of Portland cement at site before application. The slurry made with Aceproof Rainshield and Portland cement works as an excellent waterproofing additive as well as a very good bonding agent. With its unique blend of latex, additives and selected ingredients offers ultimate in bond strength and flexibility for the most demanding installation requirements.

ACEPROOF Damp guard: Cool & Seal concept Damp-proof Elastomeric Coating

ACEPROOF Damp guard - High performance acrylic elastomeric coating has excellent elongation and can maintain a watertight seal while the roof expands and contracts for certain extent. It has high resistance to organic growth and has UV resistance properties too.

ACEPROOF *Ener-G'guard* - Heat Reflective Elastomeric Waterproofing Coat

ACEPROOF Ener-G'guard - High performance acrylic elastomeric coating has excellent elongation and can maintain a watertight seal while the roof expands and contracts for certain extent. It has high resistance to organic growth and has UV resistance properties too. ACEPROOF Ener-G'guard - High performance acrylic elastomeric waterproofing coating saves money on cooling costs by reducing the heat transferred to the inside of your building.

ACEPROOF *Brush N' Bond* - Superior Quality Two Component Waterproofing Membrane

ACEPROOF BRUSH N' BOND is superior quality, high performance latex based waterproofing admixture designed to be mixed with factory prepared polymer blended filler powder to form a high quality two component latex modified, brush applicable slurry form polymer mortar which works as an excellent waterproofing agent.

ACEPROOF *Excel* - High Quality Waterproofing Membrane

An excellent quality rubber based liquid waterproof membrane used as waterproofing underlayment for installation of tile and stones. It is ready-to-use, self-curing waterproofing membrane that forms flexible film and have good adhesion property to many surfaces.

ACEPROOF *Marvel* - Excellent Quality Waterproofing Membrane

ACEPROOF MARVEL is an excellent quality, tough and carefully premixed liquid waterproof membrane. It is ready-to-use, self-curing, hydrostatic pressure resistance waterproofing underlayment that forms very strong yet flexible film which provides good adhesion to many surfaces and accommodates normal building movements without rupture.

ACEPROOF *NSG* - Non Shrinking Grout

Aceproof NSG is non-shrink grout which is manufactured with carefully selected raw materials in a state-of-the art manufacturing facility. It is cementitious, non-shrink, free flow, high strength grout used in waterproofing work.

ACEPROOF *FSG* - Fast Setting Grout

Aceproof FSG is a multipurpose cementitious non-shrink rapid setting mortar, manufactured with highest care at state of the art facility to ensure excellent performance.

We have been associated for 5 years with ACEBOND in some major projects like ARC Hospital, Poonamallee, Chennai and regularly using your products like Aceplast Traditional, Aceplast Roof Plaster, Acescreed Concentrated, Acefix 2 in 1, Acefix 3 Star, Acefix 9 Star, Acegrouts, Acemix Grout Admix, Acepoxy Epoxy grouts, Waterproofings, etc.

Mr. M. Murali

We want you to know that we are very pleased with the quality of the products, packing style and after-sales-service your company provides. We sincerely appreciate your responsiveness and the way you conduct business. We have recommended your company to others because of our satisfaction with your product and service. We look forward to doing business with you for years to come.

A CUP AND COFFEE

A group of highly established alumni got together to visit their old university professor. The conversation among them soon turned into complaints about their stressful work and life. The professor went to his kitchen and returned with a large pot of coffee and an assortment of cups, including porcelain, plastic, glass, crystal, some plain-looking, some expensive and some exquisite. The professor told them to help themselves with the coffee.

After all the students had a cup of coffee in their hands, the professor said: "Did you notice all the nice looking cups are taken, and only the plain inexpensive ones are left behind. While it is normal for everyone to want

the best for themselves, but that is the source of problems and stress in your life. "The cup itself adds no quality to the coffee. In most of the cases, it's just more expensive and hides what we drink.", the professor continued.

"What all of you wanted was coffee, not the cup, but all of you consciously went for good-looking expensive cups and then began eyeing on each other's cups."

"Let's consider that life is the coffee, and the jobs, houses, cars, things, money and position are the cups. However, the type of cup we have does not define or change the quality of our lives."

Moral: Sometimes, we fail to enjoy the coffee by concentrating only on the cup we have. Being happy doesn't mean everything's around you is perfect. It means you've decided to see beyond the imperfections and find peace. And the peace lies within you, not in your career, jobs or the houses you have.

Acrete Adhesions India Pvt. Ltd. had organised one day Masons Training program - "MART" at Nagpur, Udupi, Tirupati, Bijapur, Chennai and Latur. The workshop provided a detailed insight on our products and its application. Thanks to our team for their dedication which helped us reach our goals. We appreciate every member of our expert team for their continued Hard work.

Nagpur - June 2022

Udupi - June 2022

Tirupati - June 2022

Bijapur - June 2022

Chennai - May 2022

Latur - May 2022

Feel free to give your views, feed back, ideas and opinions related to this field. You may be the next face in our news letter.
