

Acecrete Wishes a Happy New Year...

Every year is special. Let us hope that 2024 becomes a special year for us with climbing the ladder of success.

May this new year bring many opportunities your way to explore every joy of life... and May your resolutions for the days ahead stay firm, Turning all your dreams into reality and all your efforts into great achievements.

WALLCARE PRODUCTS

Acebond introduces wide variety of wallcare products as quick and efficient replacement for conventional mixes on site. Those are manufactured with carefully selected premium grade raw materials, optimally graded fillers, suitable polymers and additives, all are pre-blended in strictly controlled and optimal conditions at our most modern plant. Once applied, Acefinish Wallcare Products becomes ideal substrates for other decorative works.

ACEFINISH Wallcare Putty

Acefinish Wall care Putty is a white cement based polymer modified wall putty specially developed as a base coat to cover unevenness and pinholes on plastered, mortar wall and ceiling to make the surface wall white and smooth and ready for primer and paint application. White Cement based Acefinish Wall care putty is the ideal base for beautiful walls, giving the smoothest surface for luxurious and silky interiors. Being water resistant, it prevents seepage and flaking, while offering maximum paint spread and minimum paint consumption.

Advantages

- Provides smooth and uniform finish to rough plasters
- Good Tensile Adhesion strength, compressive strength and flexural strength
- Has good resistance to water

TDS

ACEFINISH Coarse Putty

Acefinish Coarse Putty is a highly polymer modified dry mix cement putty or render specially designed to do thin plastering over beam, column or any kind of dry sheet roofs/ceilings. It is manufactured with carefully selected premium cement, graded aggregates and chemical additives and is designed to use for internal and external application. Once applied, this becomes an ideal substrate for paint, wall putty or other decorative works.

Available Colour: Grey & White

TDS

ACEFINISH Texture Putty

Acefinish Texture Putty is made with high quality marble powder, silica sand and quartz in a rich acrylic binding medium. This texture putty gives a very unique and different feel making the walls stand out. This material has excellent binding to the surface and has the ability to hide small cracks.

Advantages

- Ready to use
- Easy application
- Long durability

TDS

Available in Roller finish & Scratch finish in Dry & Wet form

ACEFINISH Wall Primer

Acefinish 2 in 1 Wall Primer is a water thinnable, superior grade water based wall primer which provides long lasting protection to masonry surface and enhances the aesthetic appearance of the top coat. It is an air drying primer for masonry wall and ceiling, providing a hard and tough film. Acefinish 2 in 1 Wall Primer is suitable for interior and exterior use. It does not require curing and is a mandatory part of the painting system. It is manufactured with a special type of Acrylic binder and micro fine pigments along with extenders and different types of additives. It can also be used as base coat paint and you can use it as your choice of paint by mixing suitable stainer.

FEW OF OUR PROJECTS

Project: Manikchand Apartment, Bangalore
Product Used: Acepoxy Epoxy Grout, Acegrout Superfine Cementitious Grout, Aceproof Brush N' Bond

Project: Multi Infinite, Bangalore
Product Used: Acefinish Wall Primer, Acefix 3 Star, Acepoxy Epoxy Grout

Project: Individual Bungalow, Bangalore
Product Used: Acepoxy Epoxy Grout, Acefix 7 Star, Acefix 9 Star, Sealers.

Project: Aarya Hospital, Mysore
Product Used:
Acefix 3 Star - 270 Bag
Acefix 5 Star - 365 Bag
Acefix 7 Star - 340 Bag
Acefix 9 Star (Grey) - 150 Bag
Acepoxy Aquagel 2K (5 kg) - 125 Unit

Project: Bharat Pride Park, Kalaburagi
Product Used: Aceblock Premium, Acefix 5 Star

Project: Jayadeva Hospital, Mysore
Product Used: Acefix 9 Star (Grey) - 560 Bag
Acemix Superflex Admix (20 litre) - 42 Unit

Project: Guled hospital, Bagalkote
Product Used: Acefix 3 Star, Acefix 5 Star, Acefix 9 Star, Acepoxy Aquagel 2K

Project: Bhadradas Construction, Bijapur
Product Used: Acefix 5 Star, Acefix 7 Star, Aceblock Premium, Aceproof Excel, Aceproof Marvel

Project: Patil Hospital, Ilkal
Product Used: Acefix 3 Star, Acefix 5 Star, Aceoxy Epoxy Grout

It's Not That Complicated

There was once a very wise man living in ancient times. He was elderly and educated and held knowledge and books to the highest regard. One day while on a walk, he realized that his shoes were really starting to wear out. Because he spent a lot of time walking on a daily basis, he knew he had to find the best shoes to support and protect his feet. But, back then, this wasn't such an easy task, as he couldn't jump online to do some research and have shoes delivered to his door. The man didn't want to make things worse by purchasing the wrong shoes and having inadequate protection, which would lead to injuries and the inability to leave his home and walk to find new books to read.

The man gathered all of the books he could that were written by only those that he admired the most to search for the answer to his question, "What do I do if my shoes have fallen apart?"

He read through several books for many hours before finding out that he had no choice but to go buy a new pair of shoes. He then spent a lot of time reading about how to know if a pair of shoes fits properly.

Once he was satisfied with the answers he found, he was proud of himself for doing the research and he felt confident in his ability to buy a high-quality replacement for his old shoes. He figured if he hadn't done his research, he probably would have gone barefoot for the rest of his life, as he had no one to tell him how to fix his shoes. Following the books' instructions, the man took a stick and measured his foot with it. He then went to the market and finally came upon a pair of shoes that he liked. However, he realized he had left the stick back at home, which was far away from the shop. By the time the man returned to the market, the shop was closed. And, by that point, his shoes were completely split, so he had to return home barefoot. The next morning, he walked back to the market with bare feet, but the shoes that he had chosen the day before had been sold. The wise man explained what had happened to the shopkeeper, who reacted with a sense of surprise, asking, "Why didn't you buy the shoes yesterday?" The wise man replied, "Because I forgot the stick that I had used to measure my feet back home. And anyone who knows anything about shoes knows that you have to have the correct measurements of your feet before you can buy shoes. I didn't want to buy the wrong size, and I was following the normal instructions."

Even more confused, the shopkeeper asked, "But your foot was with you, why didn't you just try the shoes on?" The wise man was equally confused in return and responded, "All the books say shoes must be bought with the exact same measurements of the shoes you already own." Laughing, the shop owner replied "Oh, no! You don't need the advice from books to buy shoes. You just need to have your feet, some money and some common sense to not complicate things."

The Moral: Sometimes you need to take action without overthinking things. Knowledge often comes in handy, but in some circumstances, if you lack experience or common sense, your knowledge will only get you so far. In fact, it could make things seem a lot more complicated than they actually are.

If you're facing an issue, don't forget to use your reasoning skills in addition to anything you've learned in a formal learning environment.
