ACEBOND CLEANERS

Cleaners

The tile or stone cleaning process can be broken down into two specific areas: the initial clean of a new installation and the on-going maintenance of an existing surface. An initial clean removes debris from factory finishing processes and installation dirt, while on-going maintenance tackles the problem of build-up of cleaning chemical residues, everyday dirt and grime and atmospheric agents.

ACECLEAN General Purpose Cleaner

ACECLEAN General Purpose cleaner is a fast acting, non-acidic concentrated wall and floor cleaners that can be used for daily maintenance of floorings made with tile and stones. The special formulation of this cleaner made it neutral pH and is most suitable for cleaning dust, dirt, grease and stains from tiled surfaces and sanitary items. When dry, the surface is left hygienically clean.

One day, a girl came upon a cocoon, and she could tell that a butterfly was trying to hatch.

She waited and watched the butterfly struggle for hours to release itself from the tiny hole. All of a sudden, the butterfly stopped moving—it seemed to be stuck.

The girl then decided to help get the butterfly out. She went home to get a pair of scissors to cut open the cocoon. The butterfly was then easily able to escape, however, its body was swollen and its wings were underdeveloped.

The girl still thought she had done the butterfly a favor as she sat there waiting for its wings to grow in order to support its body. However, that wasn't happening.

The butterfly was unable to fly, and for the rest of its life, it could only move by crawling around with little wings and a large body.

Despite the girl's good intentions, she didn't understand that the restriction of the butterfly's cocoon and the struggle the butterfly had to go through in order to escape served an important purpose. As butterflies emerge from tight cocoons, it forces fluid from their body into their wings to prepare them to be able to fly.

Moral: The struggles that you face in life help you grow and get stronger.

There is often a reason behind the requirement of doing hard work and being persistent. When enduring difficult times, you will develop the necessary strength that you'll need in the future.

Without having any struggles, you won't grow—which means it's very important to take on personal challenges for yourself rather than relying on other people to always help you.
